Hey Chris,

Hope all is going well. I have been trying to get a hold of you today regarding Nest. Can you please follow up with me asap. Nest is down and I need to get in touch with the programmer.

Please let me know either way.. I just want to at least know your getting my text messages and email.

Thanks,
Dan

Hey Chris,

Left a few text messages and an email yesterday. Not sure if your getting any of these emails or texts. Do you have a login to the server ? Maybe it needs to get rebooted.

I really appreciate it if you reply back to me as it is impacting the ESPS.

Thanks,
Dan
